

PROFESSIONAL FORENSIC ENGINEER - Branch Engineer in Responsible Charge

FORENSIC ANALYSIS & ENGINEERING CORPORATION, (FAEC) - a broadly based, well founded, multi-disciplined, forensic engineering firm presently headquartered in Hampton, VA seeks a 'Mid-Career' level licensed professional Civil/Structural or Mechanical engineer to join and become a key leader and producer in its corporate office. Consistent & significant business growth and gain in market share over the past 5 years leads us to seek a seasoned forensic engineer who has residential/commercial structure failure analysis expertise, product defect failure analysis, or other combination of strong diverse forensic investigation and testifying experience to join and become a key figure in our firm.

FAEC's staff engineers, trained technicians and qualified consultants serve insurance companies, law firms and members of general industry from various sites across the country, current licensure allows us to serve both domestic and international clients in 27 states and multiple foreign countries. FAEC proudly and professionally provides its clients with unbiased answers to their technical loss related questions by "Establishing Why" a particular accident, personal injury or system failure occurred at a given time. We are hired for our professional talent and expertise, not for what we will say.

Do you believe that your proven talent has prepared you to take on Corporate Level responsibilities by becoming the Hampton engineering branch's Principal-Engineer-in-Charge responsibilities? Have you proven experience in the forensic investigative arena but see no future for your talent? Do you presently hold a professional Engineering license in /or can become licensed in the States of VA, MD, NC, SC, DC very quickly? Would you like to be given more responsibility and corresponding authority for your future and be financially rewarded commensurately with your annual contribution to the overall success of the firm? Do you have the burning desire to show what your own entrepreneurial spirit could develop? If you answered Yes to these questions then we want to hear from you. If you like dealing with many different types of people and solving puzzles; if you enjoy the challenge of managing your own success; if you want the immediate opportunity to earn a high income and the security of having all the normal corporate benefits available to you and if you are ready to make a change early in the new year, then FAEC would like to hear from you **TODAY!**

Please visit our website: **www.forensic-analysis.com** to learn about the exciting type of forensic investigations **FAEC** and sister firms **Forensic Marine Investigations International** and **Southern Forensic Services** offer our international suite of clients and the overall type of investigative questions our clients might ask you to "Establish Why" they occurred.

If you believe you are qualified for this position then please **email your current CV / resume, and your recent salary history along with an introductory letter** stating why you believe your training and work experience would qualify you for this opportunity. Briefly explain your past forensic engineering related experience stating your own personal goals for your future engineering career growth and current salary/benefit package. Please submit your CV, letter and salary history to Corporate@4n6engr.com. All submittals will be held in strict confidence. Forensic Analysis & Engineering Corporation, a 51 year old multi-disciplined engineering firm, is an equal opportunity employer, and offers a drug free, smoke free, business casual but professional work environment.
